How to Integrate Google Drive on FlexiBackup

This guide is for those who want to back up their website on Google Drive with the FlexiBackup module. Follow the step-by-step instructions and you should be done in no time.

Get a Google Account

Before you get started, you'll need a Google account. If you don't have one, sign up for one here.

Crea	ate a Goo	gle Acco	unt
	Enter you	r name	
First name —			
1			
Last name	(optional)		
			Next
			Next

Got a Google account? Great! You can proceed to the next step.

Get Your Google Client ID, Drive Secret, and Drive Refresh Token

Next, you need to get your Google client ID, Drive secret key and Drive refresh token. You can get these by following these steps;

1. Visit the Google Cloud console or click here. You should be redirected to a welcome page as a new user. Make sure you're logged into your Google account.

2. Click on the navigation menu in the top-left corner of the screen.

Popular getting started resources

Filter by Web, Mobile, Game, Storage Containers, VMs, Hybrid/Multi, Move Workload Data, Al/ML, SAP Maps, APIs General

3. Click on the "API & Services" menu item.

<1

4. Create a new project by clicking the "CREATE PROJECT" button and filling out the "New Project" form. Skip this step if you already have

a pr	oject. After fil	ling out and s	submitting the fo	orm you should	be redirected b	ack to "A	API	& S	ervi	ices	".

18. Follow the steps here to get your Client refresh token.

Now that you have all your credentials: we can proceed.

Update Your FlexiBackup Settings

You can update your FlexiBackup settings by following these steps:

1. Log into the backend of your website and open up the FlexiBackup module by clicking on the "Flexi Backup" sub-item under the "Utilities" item on the menu.
